West Allis, WI 53214

RE: Approved Certified Roofing Contractor

Your application to be a BITEC Certified Roofing Contractor has been reviewed and approved.

Your certificate number is **2596**.

Being a BITEC Certified Roofing Contractor allows you to request warranties for our coating and roofing systems. Please note that our Warranty Application Form must be submitted prior to project start for any coating or roofing project where warranty coverage is required. Coating projects will also require adhesion test results and pre-installation photos at the time of Warranty Application submittal.

The application form and correspondence should be sent to warrantyservices@bitec.com. Once the project is completed, please send in-progress and completion photos to the same e-mail address.

Should you have any questions regarding your Certification status or our Warranty program, please call your Sales Representative, Alec Austin, or our office @ 501-354-8585.

Sincerely,

A handwritten signature in blue ink that reads "Teisha Charton".

Teisha Charton
Office Administrator

CC: Sales Representative
Alec Austin
